Makayla is the progeny of out two best alpacas, Manzana and Crockett. Makayla's dam, Manzana, we purchased at the 1998 AOBA National Show in New Mexico, private treaty from Alpacas de la Patagonia. She was pregnant with her first cria, Manzanita, and we have been delighted with her ever since! Our only import, a proud and graceful monarch of the herd.

Makayla is retired from the show rings now but her fantastic fleece will go to the AOBA National and the regional shows that follow.
